## INFORMATION FOR STUDENTS INCOMING IN ART EDUCATION DEPT. UNDER ERASMUS+ SCHEME

### How to proceed when you have decided to study at Art Education Dept.:

1) Choose one Project (for 15 ECTS) and Subjects (for 4 ECTS) (for 15 ECTS projects we strongly prefer students from institutions with which Art Education Dept. has signed a contract. For other students, it is possible to choose subjects only)

2) Visit the introductory meeting

After you have arrived in Prague, do not forget to visit an introductory meeting at the Art Education Dept. You will learn the exact date at the Faculty introductory meeting. You will receive a detailed information about your subject enrollments.

3) Register in to the Projects and Subjects

After the meeting at Art Education Dept., meet with the leader (teacher) of the Project and individual teachers of the Subjects that you plan to attend. The Subjects are being provided through other regular subjects taught at the Dept. Consequently, you will be in close contact with Czech students. You will receive instruction and a feedback in English. Please prepare a portfolio of your artworks and present it to the teachers during the first meeting in Prague, it can help the teachers identify which course is most suitable for you.

### **Consultation hours of our teachers**

Exceptionally, consultation hours are being changed during the semester. Before you visit individual teachers, always check the link.

4) Get records in your "blue book" (sc. index) in the end of the semester and check your records in the SIS (electronic system of evidence)

Fill the names and codes of Project and Subjects, credits and names of lecturers into the "blue book". In the end of the semester students must get signatures from each lecturer as a proof of their successful finishing of each Subject or Project. After getting all signatures, visit the secretary of the Art Education Dept. and she will register your results. Dept. for International Relations (Mgr. Nikola Velíšková) will give you the transcript of your records for the sending institution (your school).

### **OEB321043 Thinking through images – images in thoughts**

( [Ak. mal. Mgr. Martin Velíšek, PhD.](#) , 15 credits, English)

*Duration: 3 – 6 months*

Contact: [martin.velisek@pedf.cuni.cz](mailto:martin.velisek@pedf.cuni.cz)

**Annotation:** Art work in this project is based on conceptual thinking as well as on manual abilities (painting, drawing, dealing with other media). Students in this project reflect the way from an idea to images and vice versa and consider Art like a medium, nonobjective expression and application of structure of meanings. The ideas are specified in discussion/ colloquy. Students will explore artifacts (visual expressions) by studying them through discussions, sketches, copies, paraphrases and in readings. The aim is to support student's conceptual thinking and intensification of their manual and intellectual abilities in art range. The result of the project is not predetermined. It is expected that student will present at the end a wide range of artworks such as drawings, paintings, installation, other media works and texts documenting his/her thinking and process of creation.

**Resources:** John Dewey, Michel Foucault

**Readings:** will be specified during work on project

### **OEB321008 Photo image in education**

( [MgA. Sylva Francová](#), . 15 credits, English)

*Duration: 3 – 6 months*

Contact: [sylva.francova@pedf.cuni.cz](mailto:sylva.francova@pedf.cuni.cz)

**Annotation:** This project is for those who love making and looking at photos. We are going to explore the following questions: How do I use photography when studying abroad? What is the position of photography in my life, in my art work? Which functions does my camera and photography have in relationships and communication when I'm abroad? What is the position of photography in the work of Art education teacher? How could our pupils deal with photography during Art education lessons? Students are visiting galleries focused on photography or exhibiting photographs (such as Langhans gallery, Galerie Rudolfinum, Museum of Decorative arts, DOX/ Centre of Contemporary Art, etc.), discussing their photographic diaries and studying relevant literature.

**Readings:** will be specified during work on project.
